

St. Marie's Catholic Primary School

Autumn — Homework Menu

Art/DT

Draw or paint pictures experimenting with different shapes and colours. Explore the artist Sarah Morris to get some inspiration. Think about shapes, lines and how you can overlap to make your picture unique.

Maths

Practice your number bonds of 5 and 10. you could find 5/ 10 objects and see how many different ways you can split them into two groups. You can also use Youtube to watch the Jack Hartman number bonds of 10 song.

Come and See

Make a scrap book of all your favourite things that God created. Is the sun your favourite? Maybe the sea creatures are your favourite!

Bring into school a picture of your family to display in class.

Physical Education

Play games that involve running, jumping, throwing and catching to develop your skills. Play games your parents and grandparents played when they were your age.

English

Access Reading Eggs at home and complete the work assigned. Practice the spellings on the look and cover sheets sent home weekly

Access the Ruth Miiskin website to access phonics.

Science

Take a close look at items around your house, garden and local area to find out what materials they are made of. What is a fence made of? What is your house made of?

Geography

Go on a walk around Northwood, list or take photographs of any local landmarks. Are there any special monuments? Statues? Buildings?

History

Research toys from the past . Find out what toys your parents/ grandparents played with, are they the same as the toys you play with now? Do they still have any toys from their childhood?

Computing

Look at the different parts of a computer and find out what they are used for. If you don't have a computer where would you find one?

PSHE

Create a poster explaining the role of the Hippocampus, Amygdala and Prefrontal Cortex. You can access the My Happy Minds website to give you information and ideas.
